Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 one-cent stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

On Diamonds

We Save You Money.

We do not carry diamonds in stock because this would not pay in a town of this size, but we can do much better for customers by making special orders for exactly what they want. Dealers who carry the goods in stock necessarily have a considerable amount of capital tied up all the time and they must have larger profits to justify this outlay. We want only a slight profit, enough to pay for the time and trouble involved. Having been in the jewelry business for nearly twenty years we know where to buy the most reliable goods for the least money possible, and this is a most important point. We have an arrangement to get as many stones as you desire to select from.

We will save you from \$15 to \$25 (and sometimes more) on each \$100 invested in a diamond.

We guarantee qualities to be exactly as represented, and behind our guarantee is that of the largest diamond cutters in America.

Without boasting about it we have sold a considerable number of very satisfactory diamonds in this way—the sensible and economical way.
